

CROWN LENGTHENING & SOCKET PRESERVATION LECTURE & HANDS-ON

DR SID KOTHARI

**14 hrs
CPD**

Brisbane 12-13 Feb 27

Melbourne 19-20 Apr 27

By the end of this course, participants will be able to:

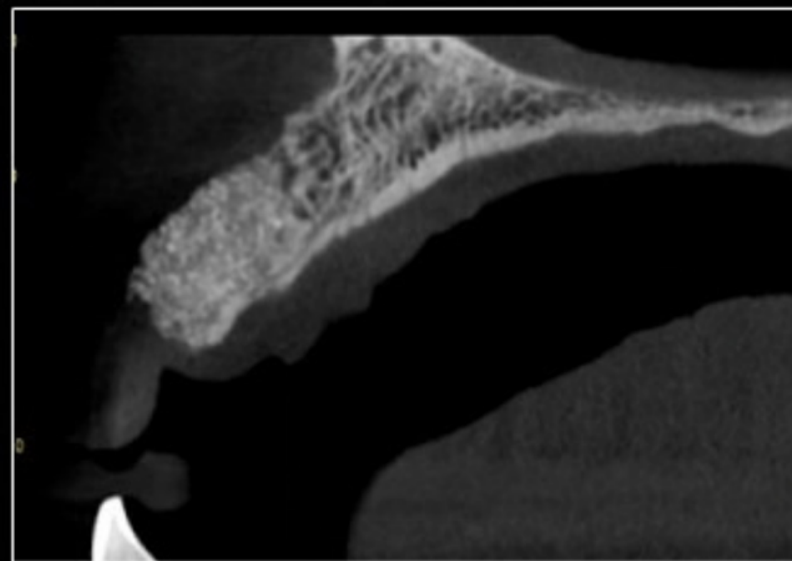

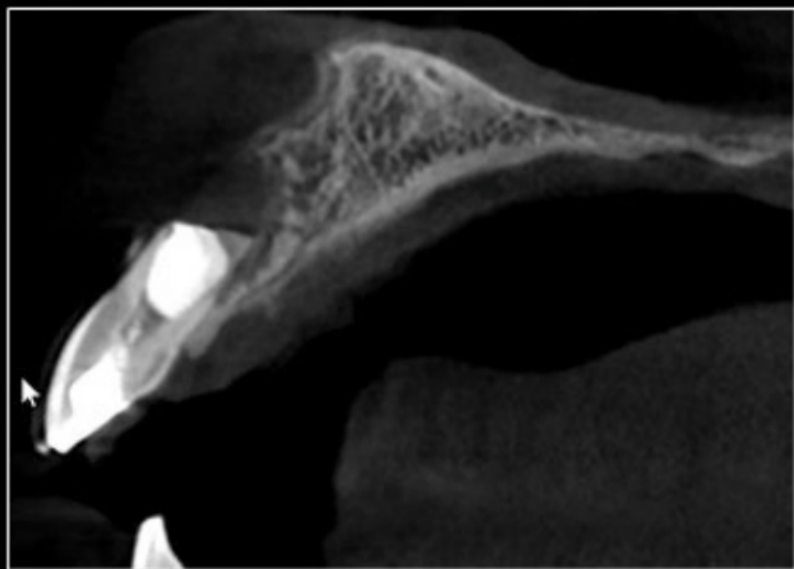

- Understand the key biological principles that guide surgical treatment planning.
- Identify ideal tooth proportions, gingival levels, and gingival zenith positions.
- Explain the rationale, risks, benefits, and treatment alternatives clearly to patients.
- Understand the principles of flap design, osseous recontouring, and aesthetic crown lengthening.
- Apply atraumatic extraction techniques to minimise damage to the surrounding hard and soft tissues.
- Understand the principles and indications for socket preservation following tooth extraction.
- Select appropriate bone graft materials for socket preservation based on the clinical situation.
- Use digital dentistry tools to improve surgical planning and achieve more predictable outcomes.
- Recognise, prevent, and manage common surgical complications.

Brisbane : 12-13 Feb 27 Cost : \$1859 + GST

Socket preservation
